<p>Comment: Great work Mark! You and your team covered all key concepts in the rubric. I was very impressed with your analysis of the situation and your proposed solutions to the problem. You seem to have a reasonable timeline with a very detailed budget. The goals and objectives seem to be attainable for the employees. I learned a great deal from your paper and the level of research and information was phenomenal. Major points and content are stated clearly; are supported by specific details, examples, or analysis; and are organized logically. The introduction provided sufficient background on the topic and the conclusion is logical, and reviews the major points as well. The paper was in APA format. Content and grammar were good. Comment: Comments: Excellent work Team B!

Mark, your participation and contributions to this assignment and your Learning team were great! You and your group were able to create more than 10 FAQs questions and answers about one of your learning team members professional settings. Great job on your presentation of your groups research. You focused on ideas and concepts within paragraphs and the sentences were well organized and meaningful. You demonstrated correct usage of formal English language in sentence construction. The writing is concise, in active voice, and avoids awkward transition and overuse of conjunctions. This would be a great document to submit to your organization.
